Product Overview

High-Performance Linear Lighting Solution

This linear LED fixture is engineered for versatile industrial and commercial applications, offering a sleek, low-profile design that integrates seamlessly into large indoor spaces. Built with durable aluminum housing and high-quality internal components, it ensures long-lasting reliability and reduced maintenance requirements. The unit delivers uniform, high-output illumination that enhances visibility and safety, while its energy-efficient technology significantly minimizes power consumption.

Technical Specifications

Housing Material	Aluminum
Mounting Method	Suspension mounting

Applications

Industrial Applications	Warehouses, Factories, Gymnasiums
Specialized Growing Applications	Vertical Farms, Greenhouses, Growth Chambers

Performance Metrics

Performance Highlights

1 High Energy Efficiency	1 High Durability
