

Lineman's Pliers

These pliers are designed for gripping, twisting, bending, and cutting wire and cable. They feature a high-leverage design for increased cutting power and gripping strength.

Overview

Professional Lineman's Pliers

These professional-grade lineman's pliers are essential tools designed for electricians and tradesmen. Engineered for versatility, they excel at gripping, twisting, bending, and cutting wire and cable with precision. Their high-leverage design ensures superior cutting power and gripping strength, making them a reliable choice for demanding electrical work.

Technical Specifications

Model Specifications

Model Number	Length (mm)	Weight (g)
5202-1002	150	220
5202-1004	200	290

Features

Design Highlights

- High-leverage design for increased power
- Flat gripping surface
- Rounded section for gripping round objects
- Integrated cutting edge near pivot point

Core Functions

Gripping, Twisting, Bending, Cutting
