

Linesman Pliers with Insulated Grip

These linesman pliers are designed for gripping, bending, and cutting wires. They feature insulated handles for a secure grip and protection against electrical shock.

Product Overview

Professional Grade Linesman Pliers

These American-style linesman pliers are designed for reliable performance in gripping, bending, and cutting wires. Built for versatility, they feature durable construction suitable for a range of electrical and general-purpose applications. The insulated handles provide a secure grip and added safety for the user during operation.
