

# Lint-Free Cleanroom Wipes for ISO Class 4 Environments

These lint-free wipes are designed for use in ISO Class 4 (Class 10) cleanroom environments. They are suitable for critical cleaning applications in industries requiring low particulate contamination.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Cleanroom Wipes

These lint-free cleanroom wipes are engineered for critical cleaning applications in highly controlled environments, specifically meeting ISO Class 4 (Class 10) requirements. Manufactured using purified 18M EDI ultrapure water, they are designed to minimize fiber release and particle generation. Ideal for industries such as electronics and pharmaceuticals, these wipes provide the strict contamination control necessary for maintaining operational integrity.

## Technical Specifications

### Cleanroom Compatibility

ISO Class 4 • Class 10

### Material Composition

70% Polyester, 30% Nylon

### Wipe Dimensions

9" x 9"

### Packaging

100 wipes per pack

### Quality Standards

ISO 9001, ISO 14001, ISO 14644-1:1999(E)

## Performance Metrics

### Certification

- NEBB Certified
- ISO Class 4 Certified (e0.1µm & e0.3µm)

### Cleaning Process

Processed with 18M EDI Ultrapure Water
