Product Overview

High-Performance Cleanroom Wipes

These lint-free cleanroom wipes are engineered for critical environments, meeting stringent ISO Class 5 (Class 100) cleanliness standards. Manufactured in certified facilities, they are designed to minimize particulate generation and fiber release, making them ideal for sensitive applications in electronics and pharmaceutical industries. Each wipe is processed with high-purity water to ensure optimal cleanliness for contamination-controlled workflows.

Technical Specifications

Cleanliness Rating

ISO Class 5 • Class 100

Manufacturing Standards

ISO 9001, ISO 14001, ISO 4 Certified Workshop

Washing Process

18M EDI Ultrapure Water

Product Variants

Available Series

- C1 Series: 100% Polyester
- C2 Series: Polyester Microfiber
- C3 Series: Knitted Blend Microfiber (70% Polyester + 30% Nylon)
- C4 Series: Woven Blend Microfiber (70% Polyester + 30% Nylon)
- C5 Series: Knitted High-Density Blend Microfiber (70% Polyester + 30% Nylon)
