Product Overview

High-Performance Cleanroom Wipes

These 100% polyester knitted cleanroom wipes are engineered for critical environments requiring stringent contamination control. Featuring laser or ultrasonic sealed edges, they prevent linting and loose ends, ensuring superior cleanliness. Laundered with 18 M $\text{\textcircled{C}}$ pure water, these wipes offer exceptional absorbency and are compatible with various solvents like IPA and acetone.

Technical Specifications

Cleanroom Compatibility

ISO Class 4 • Class 10

Available Grain Patterns

- Stripe Grain (suitable for sensitive surfaces)
- Grid Grain (suitable for stubborn stains)

Material

100% Polyester

Edge Treatment

Laser Sealed, Ultrasonic Sealed
