

# Liquid and Gas Flow Meter

This meter accurately measures the flow of both liquids and gases. Its robust design includes a metallic housing, brass fittings, a protective coating, and a clear display for easy reading.

## Product Overview

### Precision Flow Measurement

This liquid and gas flow meter is a high-precision instrument engineered for reliable measurement in industrial and commercial environments. It features a robust metallic housing with durable brass fittings and a protective blue coating to withstand demanding conditions. The device includes a clear, easy-to-read display that tracks both real-time flow rates and total volume, ensuring accurate monitoring for your operational needs.

## Technical Standards

### Measurement Units

- m<sup>3</sup>

### Compliance Standards

ISO 4064 CLASS C

## Key Metrics

### Serial Number

0410000145

## Construction

### Housing Material

Metallic with protective blue coating

### Fittings Material

Brass
