Overview

High-Performance 600W Battery Charger

This versatile 600W battery charger is designed for reliable power delivery across a variety of electric mobility applications, including e-bikes, scooters, and electric motorcycles. Built with a durable aluminium alloy shell, it ensures efficient heat dissipation for stable operation. With broad compatibility for Li-ion, LiFePO4, and lead-acid battery chemistries, it serves as a flexible charging solution for professional and personal use.

Technical Specifications

Output Voltage	58.4 V
Output Current	10 A
Output Power	600 W
Input Voltage Range	110-132VAC / 200-264VAC

Compatibility & Usage

Supported Battery Chemistries	Li-ion, LiFePO4, Lead Acid
Primary Applications	Electric Motorcycle, Scooter, E-bike

Physical Characteristics

Dimensions	173 x 90 x 63 mm
Net Weight	1.35 kg
Casing Material	Aluminium Alloy

Compliance & Support

Certifications

CE

Warranty Period

12 Months
