

Lithium Battery Powered Headlamp

This headlamp is equipped with a powerful lithium battery for extended use. Its rugged design and adjustable strap make it suitable for outdoor activities, camping, and professional applications requiring hands-free lighting.

Product Overview

Professional Lithium-Powered Headlamp

This high-performance headlamp is engineered for reliability in demanding environments, featuring a robust lithium battery system. Designed for both professional and outdoor applications, it provides essential hands-free illumination with adjustable settings. The rugged, high-impact resistant housing ensures durability while maintaining a comfortable fit for extended use.
