

# Lithium Battery

This lithium battery is designed for high-performance applications, offering a reliable and efficient power source. Its robust construction and advanced lithium-ion technology ensure superior energy density and long cycle life.

## ADDITIONAL IMAGES

## Overview

### High-Performance Lithium Power Solution

This lightweight lithium battery (Model F4820) is engineered to provide reliable, efficient power for high-performance applications. Designed with a compact form factor, it offers superior energy density suitable for demanding environments. It serves as an optimal power source for two-wheel electric vehicles, ensuring consistent performance and safety.

## Technical Specifications

Capacity	20 Ah
Output Voltage	48 V
Max Output Current	20 A

## Dimensions

Dimensions (L x W x H)	295 x 190 x 96 mm
------------------------	-------------------

## Applications

Target Use Cases	Two-wheel Electric Vehicles, Portable Power, Energy Storage
------------------	---

## Performance Metrics

### Key Performance Metrics

<b>48 V</b> Voltage	<b>20 Ah</b> Capacity	<b>20 A</b> Max Current
