Product Overview

High-Performance Lithium Coin Cells

These 3V lithium button cell batteries are engineered for reliable, long-lasting power in compact electronic devices. Designed with a focus on durability and consistent energy output, they are an ideal choice for watches, calculators, remote controls, and key fobs. The series supports a wide range of standard sizes to meet diverse application requirements.

Technical Specifications

Available Models

- CR1616
- CR1620
- CR1632
- CR1220
- CR2430
- CR2450
- CR2477

Voltage	3 V
Battery Chemistry	Lithium

Quality & Compliance

Certifications	BSCI, GSV, ISO9001, ISO14001, 2006/66/EC, MSDS, IEC
Quality Guarantee	5 years

Commercial Terms

Minimum Order Quantity	50000 pcs
Private Label Available	Yes

Safety Features

Safety Design
Anti-Swallowing Packing
