Product Overview

Professional Battery Charging Solution

This high-performance battery charger is engineered for efficiency, safety, and reliability. Designed with a durable aluminum alloy casing, it provides stable power delivery for various electric mobility applications. Its compact form factor and smart charging indicators make it an ideal choice for maintaining and charging electric vehicle battery systems.

Technical Specifications

Output Performance

29.2 V
Voltage

18 A
Current

500 W
Power

Input Voltage Range

110-132VAC / 200-264VAC

Compatible Battery Types

Li-ion, LiFePO4, Lead Acid

Physical & Build

Dimensions

173 x 90 x 63 mm

Net Weight

1.35 kg

Case Material

Aluminium Alloy

Compliance & Support

Certifications

CE

Warranty

12 Months

Applications

Recommended Applications

- Electric Motorcycle
- Scooter
- E-bike
