

Lithium-Ion Rechargeable Battery

High-capacity lithium-ion battery designed for electronic devices, ensuring a reliable and long-lasting power supply. This battery is optimized for both performance and safety, making it suitable for diverse applications.

Overview

High-Performance Lithium-Ion Power

This high-capacity Lithium-Ion rechargeable battery is engineered to provide reliable and long-lasting power for a variety of electronic devices. Designed with a focus on optimal performance and safety, it serves as a dependable energy source for demanding applications. Its robust construction ensures consistent output, making it an ideal choice for professional-grade equipment.

Technical Specifications

Product Type

Battery Pack • Rechargeable

Battery Chemistry

Lithium-Ion (Li-ion)

Model Identifier

V0420106A12

Certifications

SCEIU
