

Lithium Polymer Battery 3.7V 1000mAh

Compact lithium polymer battery with a 1000mAh capacity and 3.7V voltage. It is suitable for electronic devices needing a reliable, lightweight power source.

Product Overview

Reliable Power Solution

This compact lithium polymer battery is designed to provide a consistent and lightweight power source for a wide range of electronic applications. With a standard 3.7V output and a 1000mAh capacity, it offers a balance of energy density and size efficiency. The unit is clearly marked for polarity, ensuring straightforward integration into your device assemblies.

Technical Specifications

Rated Voltage	3.7 V
Capacity	1000 mAh
Model Number	CEL 602760
Key Features	Lithium Polymer, Compact Design, Polarity Marked
