

LJ491QE EFI Petrol Engine

The LJ491QE EFI Petrol Engine is a high-performance engine designed for automotive applications. It features an electronic fuel injection (EFI) system for optimized fuel delivery and enhanced efficiency.

Overview

High-Performance EFI Petrol Engine

The LJ491QE EFI Petrol Engine is a high-performance power unit designed for diverse automotive applications. Featuring an advanced electronic fuel injection (EFI) system, it ensures optimized fuel delivery, enhanced efficiency, and smooth, reliable operation. This engine is engineered for durability, making it an ideal choice for both original equipment manufacturing and aftermarket vehicle upgrades.

Performance Metrics

Engine Type

Petrol • EFI

Fuel System

Electronic Fuel Injection (EFI)

Ideal Applications

Automotive, Vehicle Upgrades, OEM
