

Loader Bucket Teeth and Segments

These loader bucket teeth and segments offer high wear resistance for increased production efficiency. They are engineered for high reliability and fatigue resistance in demanding applications.

Product Overview

High-Performance Ground Engaging Tools

These loader bucket teeth and segments are precision-engineered to provide optimal digging performance and exceptional durability in the most demanding environments. Designed to withstand high-impact forces and abrasive conditions, these components help ensure extended service life and reduced equipment downtime. They are the ideal choice for heavy-duty construction and mining applications requiring reliable, high-strength ground-engaging solutions.

Compatibility

Equipment Brands Supported

- CAT
- KOMATSU
- HITACHI
- JCB
- KOBELCO
- HYUNDAI
- TEREX
- LIEBHERR
- BUCYRUS
- P&H
- DOOSAN
- SANY
- SDLG
- XUGONG
- LIUGONG

Compatible Equipment

Volvo L220, Volvo L250, Volvo L330, Volvo L350

Technical Details

Available Components

Bucket Teeth • Adapters • Segments • Locking Devices • Retainers • Bolts • Nuts • Washers

Tooth Configurations

Application Type	Performance Focus
GPL	General Purpose
AML	Abrasive Material
AMRL	Rock and Highly Abrasive
PHS	Hot Slag
