

Locking Swing Handle Latch

This locking swing handle latch is designed for secure closure of enclosures, cabinets, and compartments. The latch features a durable metal construction with a chrome finish, providing both strength and corrosion resistance.

Product Overview

Secure Enclosure Access

This locking swing handle latch is engineered for the secure closure of enclosures, cabinets, and compartments. Featuring a durable metal construction with a sleek chrome finish, it offers both high strength and excellent corrosion resistance. The integrated key lock mechanism ensures unauthorized access is prevented, making it an ideal choice for electrical panels, server racks, and various industrial equipment.
