

Long Nose Pliers for Precision Work

These long nose pliers are designed for precision work. The slim nose allows access to tight spaces, making them ideal for gripping, bending, and cutting wires.

Product Overview

Precision Long Nose Pliers

These high-quality long nose pliers are engineered specifically for precision tasks in tight spaces. Featuring a slim, elongated nose, they are ideal for intricate gripping, bending, and wire cutting applications. The ergonomic handle design ensures a comfortable and secure grip, minimizing user fatigue during extended periods of professional use.
