

Long Nylon-Braided Lightning Cable

This extra-long Lightning cable is designed for iPhones and other devices with an 8-pin port. The nylon braided surface is sturdy, durable, and tangle-resistant for convenient use.

Product Overview

High-Performance Charging Solution

This 2-meter nylon-braided Lightning cable is engineered for durability and flexibility, featuring a tangle-resistant design that is perfect for comfortable use while charging. Equipped with a smart charging chip and pure copper core, it ensures efficient power delivery and data synchronization without compromising audio quality. The robust construction makes it an ideal choice for users seeking a reliable, long-reach charging solution for their devices.

Technical Specifications

Model Number	mx23
Length	2 m
Material	Nylon braided + pure copper core
Available Colors	Gold, Pink, Gray

Features & Compatibility

Key Features

- Simultaneous charging and data transfer
- Tangle-resistant braided fabric
- Smart charging chip for fast performance
- High-sensitivity connector

Usage Scenarios

Gaming • Video Streaming • Music Playback

Compatibility	Devices with 8-pin port (iPhone 5/5s/6/6s Plus and others)
