

Long Reach Lighters for Food and Beverage Burners

These long-reach lighters are designed for igniting burners and grills. They feature a slender metal nozzle and simple trigger mechanism.

Product Overview

Long Reach Lighters for Food and Beverage Burners

These long-reach lighters are specifically designed for safe and efficient ignition of burners, grills, and various appliances within food and beverage processing environments. Featuring a durable plastic body with an ergonomic grip, they provide comfort during repeated use. The long, slender metal nozzle ensures easy access to confined spaces, making them an essential tool for maintenance and kitchen operations.
