

Long Reach Lopping Shear for Branch Cutting

This professional-grade lopping shear is designed for efficient cutting of thick branches. It features high-carbon steel blades for lasting sharpness and lightweight aluminum handles for comfortable use.

Product Overview

Professional Long Reach Lopping Shear

This professional-grade lopping shear is engineered for the efficient and effortless cutting of thick branches in gardens and orchards. Featuring high-carbon steel blades, the tool maintains lasting sharpness and durability for demanding tasks. The design incorporates long, lightweight aluminum handles that provide increased leverage, significantly reducing the physical effort required for each cut during extended use.

Technical Specifications

Blade Material	High-carbon steel
Handle Material	Lightweight aluminum
Ideal Applications	Tree maintenance, Shrub pruning, Orchard care, Woody plant maintenance

Key Features

Design Benefits

- Increased leverage for thick branches
- Reduced physical effort per cut
- Lightweight construction for comfort
- Durable, long-lasting blade sharpness
