

Long Reach Lopping Shears

These lopping shears are designed for pruning high branches and thick stems. They feature a high carbon steel blade and a compound lever system for increased cutting power.

Product Overview

Professional Grade Long Reach Lopping Shears

These professional-grade lopping shears are engineered for efficient pruning of high branches and thick stems. Featuring a compound lever system, they provide increased cutting power while the high carbon steel blade ensures clean, precise cuts. The lightweight aluminum handles, combined with comfortable grips, are designed to reduce user fatigue during extended gardening or landscaping tasks.

Technical Specifications

Cutting Capacity	2 inches
