

# Long Steel Measuring Tape with Iron Frame

This long measuring tape features a durable steel tape and a robust iron frame. It is designed for accurate measurements over extended distances.

## Product Overview

### Built for Durability and Precision

This long steel measuring tape is engineered for demanding industrial and construction environments. Featuring a robust iron frame, it offers exceptional resistance against impact and wear, ensuring a significantly longer service life compared to standard models. Designed for accuracy over extended distances, it is an essential tool for professional surveying and large-scale construction projects.

## Construction & Design

Frame Material	Iron
Key Features	Impact Resistant, Extended Distance, Easy Winding Handle, Robust Construction

## Applications

### Primary Applications

- Surveying
- Construction
- Industrial Measurements
