

# Low Headroom Electric Chain Hoist with Forged Hook and Limit Switch

This low headroom electric chain hoist is engineered for lifting heavy loads in confined spaces. It features a forged hook for secure load attachment and a limit switch for enhanced safety.

## Overview

### High-Efficiency Lifting for Confined Spaces

This low headroom electric chain hoist is engineered for demanding industrial environments where vertical clearance is limited. Featuring a robust motor equipped with a cooling fan, it ensures reliable performance during continuous operation. The system includes advanced safety features such as a mechanical load brake, chain gear for controlled deceleration, and a durable forged hook for secure load attachment.

## Performance Metrics

### Rated Loading Capacity

**1 t**

Minimum Capacity

**5 t**

Maximum Capacity

### Lifting Speed

**2.8 m/min**

Min Speed

**6.8 m/min**

Max Speed

## Technical Specifications

### Speed Configuration

Single Speed • Double Speed

### Construction Features

- Carburized chain for enhanced durability
- Integrated cooling fan
- Mechanical load brake
- Chain gear for deceleration
- Forged safety hook
- Limit switch included
