

Low Noise Diesel Generator, 20KW-1000KW

This low noise diesel generator is designed for applications requiring reliable and quiet power. It offers a power range from 20KW to 1000KW, providing flexibility for different load requirements.

Product Overview

Quiet Power Solutions for Demanding Environments

This advanced low noise diesel generator set provides a reliable power source ranging from 20KW to 1000KW. Engineered with noise reduction technology, it is ideal for sensitive environments including hotels, hospitals, and telecommunications facilities. The system is designed to act as either a primary or backup power supply, ensuring continuous operation and high efficiency.

Technical Specifications

Power Range

20 KW

Minimum Power

1000 KW

Maximum Power

Engine Compatibility

Cummins, Shangchai, Weichai, Jichai, Deutz, Volvo, Benz, Rolls Royce

Application & Usage

Suitable Applications

- Telecommunications
- Hotel buildings
- Entertainment venues
- Hospitals
- Shopping malls
- Industrial and mining enterprises

Support & Service

Technical Support Response

24 hours
