

Low Noise Diesel Generator

This low noise diesel generator features a weather-proof and compact structure. It is constructed with robust materials for long-lasting performance.

Product Overview

Low Noise Environmental Series

This diesel generator series utilizes advanced acoustic and airflow technology to meet stringent environmental requirements. Housed in a durable, multi-purpose silent canopy, the unit provides reliable power while minimizing noise pollution. It is specifically designed to be soundproof, rainproof, rustproof, and dustproof for safe operation in diverse and noise-sensitive environments.

Performance

Noise Level

75 db(A)

Maximum Noise

Measurement Distance

7 m

Features

Canopy Protection

Soundproof, Rainproof, Rustproof, Dustproof

Safety & Control

Safety Systems

- Overload protection
- Low oil shutdown
- High-temperature shutdown

Digital Monitoring

- Voltage
- Current
- Frequency
- Operating hours
