

# Lowrider Bicycle with Ape Hanger Handlebars

This bicycle features a lowrider-style frame with a sprung seat and ape hanger handlebars. It is equipped with front and rear wheels with red-striped tires, a single-speed drivetrain, and a rear suspension system.

## Product Overview

### Classic Lowrider Design

This custom-style lowrider bicycle features a distinctive frame geometry paired with iconic ape hanger handlebars for a unique riding aesthetic. Designed for comfort and style, the bike includes a sprung seat and a dedicated rear suspension system to smooth out the ride. It is built with a reliable single-speed drivetrain, making it an ideal choice for leisure cruising and urban riding.
