

LR03 1.5V Alkaline Battery

High capacity alkaline battery made with German technology. It is an LR03 1.5V battery suitable for digital devices.

Product Overview

High-Performance Alkaline Power

These LR03 1.5V alkaline batteries are engineered with advanced technology to deliver reliable, high-capacity power for a wide range of digital devices. Designed to meet international quality standards, they offer consistent performance and longevity. Their environmentally conscious formulation makes them a sustainable choice for professional and consumer applications.

Technical Specifications

Battery Type	LR03 (AAA)
Voltage	1.5 V
Technology	High Capacity Alkaline

Certifications

Quality Certifications	CE, ISO 9001:2000
------------------------	-------------------

Features

Key Features

- High capacity output
- Environmentally friendly design
- Optimized for digital devices
- German technology integration
