

LR6 1.5V Alkaline Battery

High-performance alkaline batteries are designed for digital devices. Optimized for digital applications, these LR6 1.5V batteries provide excellent performance and long-lasting power.

Product Overview

High-Performance Alkaline Power

These LR6 1.5V alkaline batteries are engineered to deliver reliable, long-lasting power for demanding digital devices. Designed with advanced technology, they provide consistent performance and are optimized for high-drain applications. Each unit is environmentally conscious, featuring a mercury-free composition that meets rigorous quality standards.

Technical Specifications

Battery Type	LR6 (AA)
Voltage	1.5 V
Environmental Compliance	Yes

Certifications

Quality Certifications	CE, ISO 9001:2000
------------------------	-------------------

Key Features

Performance Highlights

- Mercury-free construction
- High-capacity alkaline chemistry
- Optimized for digital devices
- Long-lasting power output
