

Machinery Moving Skates

These cargo trolley roller skids offer a capacity ranging from 3 tons to 1000 tons. They are designed for transporting large and heavy equipment in factories, warehouses, and construction sites.

Product Overview

Heavy-Duty Machinery Moving Solutions

These professional-grade cargo trolleys and roller skids are engineered for the safe transport of heavy equipment, ranging from 3 tons to 1000 tons. Designed for stability and efficiency, they are essential for large-scale projects, bridge installations, and industrial relocation tasks. Built with high-quality materials, these skates ensure reliable performance and safety in demanding operational environments.
