

Machinery Side Cutter and Shroud Set

This set provides protection and enhanced aerodynamics for machinery. The components feature mounting holes for secure attachment in various industrial applications.

Product Overview

High-Performance Wear Protection

This comprehensive set of side cutters, side protectors, wing shrouds, and vertical shrouds is engineered to provide superior protection for heavy machinery buckets. Designed for durability in demanding excavation and loading environments, these components help extend the service life of your equipment. The set includes specific models such as SC748R and SC747L, ensuring a precise fit for optimized performance and reduced maintenance downtime.

Compatible Equipment

Supported Machinery Types

Excavators, Loaders, Bulldozers, Motor Grader Rippers, Electric Shovels

Model Reference

Available Model Numbers

- SC748R
- SC747L
- i160
- 10300
- 10200
- 535-00103P
- 535-00102P

Technical Specifications

Included Components

- Side Cutter
- Side Protector
- Wing Shroud
- Vertical Shroud

Design Features

Customized Fit • Mounting Holes Included • Industrial Grade • Aerodynamic Enhancement
