

Machining Drill Bit and Saw Blade Set

This set contains high-speed steel drill bits, circular saw blades, and milling cutters. It is suitable for drilling, cutting, and shaping metal, wood, and plastic materials in machining applications.

Product Overview

Versatile Machining Solution

This comprehensive set features high-speed steel drill bits, circular saw blades, and milling cutters designed for precision machining. It offers a versatile solution for drilling, cutting, and shaping a wide range of materials including metal, wood, and plastic. With a variety of sizes and tool types included, this set is engineered to handle diverse tasks efficiently.

Technical Details

Included Tool Types

- Drill bits
- Circular saw blades
- Milling cutters

Primary Applications

Drilling • Cutting • Shaping

Material

High-Speed Steel (HSS)

Compatible Materials

Metal, Wood, Plastic
