

Magnetic Back Bottle Opener

This bottle opener features a magnetic back, allowing it to be stored conveniently on refrigerators or other metal surfaces. It has a standard bottle opening mechanism on the back and can have a custom printed design on the front.

Product Overview

Customizable Magnetic Bottle Openers

These magnetic back bottle openers are the perfect solution for creating personalized souvenirs, promotional advertising gifts, or unique household decorations. Designed for use with button-making machines, each component set allows you to transfer custom images onto a durable metal shell. The integrated magnet makes it easy to display your finished creations on refrigerators or any metal surface.
