

Magnetic Multi-Connector Charging Cable

This is a magnetic charging cable with Type-C, Lightning, and Micro-USB connectors. It features a flexible, segmented design with magnetic joints for easy coiling and storage.

Product Overview

Innovative Magnetic Charging Solution

This versatile magnetic multi-connector cable simplifies your charging experience by combining three essential interfaces into one flexible, easy-to-manage design. Featuring magnetic joints that allow for effortless coiling and storage, this cable minimizes tangles and keeps your workspace organized. Designed for wide compatibility, it supports smartphones, tablets, and various mobile devices with consistent performance.

Technical Specifications

Length	1 m
