

Magnetic Test Pin for Electronic Assembly Machines

This test pin is designed for use in electronic assembly machines, providing a reliable connection for electrical testing. The magnetic tip ensures secure placement and consistent contact during testing procedures.

Product Overview

Precision Magnetic Test Pin

This precision-engineered test pin is designed for high-performance SMT assembly machines. It features a specialized magnetic tip that ensures secure and reliable contact during critical testing and maintenance procedures. Constructed from high-quality materials, this component is built to withstand rigorous use, making it an ideal choice for quality control and machine alignment applications in electronic manufacturing environments.

Technical Specifications

Key Feature

Magnetic Tip • Precision Engineered

Part Number

N210113757AC

Primary Application

SMT Assembly, Maintenance, Quality Control, Machine Alignment

Compatibility

Compatible Machine Series

- NPM Series
- Next Production Modular Systems
