

# Magnetic Tool Holder Tray

This durable steel tray features a magnetic backing for secure attachment to any metal surface. It is designed with a raised lip to prevent tools and parts from rolling out.

## ADDITIONAL IMAGES

## Product Overview

### Professional Magnetic Tool Organization

These heavy-duty magnetic tool holder trays are designed to keep essential tools and small metal parts securely in place within workshops, garages, or automotive repair environments. Featuring a robust powder-coated steel construction and powerful magnetic bases, they attach firmly to ferrous surfaces to prevent items from rolling or getting lost. The angled design ensures easy access and visibility, making them an ideal solution for maintaining an organized and efficient workspace.

## Technical Specifications

### Size and Capacity Comparison

Size Class	Dimensions (mm)	Magnet Count	Load Capacity (kg)
8-inch	210 x 110 x 120	3	0.77
12-inch	310 x 110 x 120	4	1.17

Material	0.7 mm Steel, Powder Coated
Mounting	Magnetic Base, Ferrous Surface Compatible

## Key Features

### Key Benefits

- Strong magnetic base for secure attachment
- Durable powder-coated steel finish
- Angled design for easy tool access
- Raised edges to prevent parts from rolling out
