Product Overview

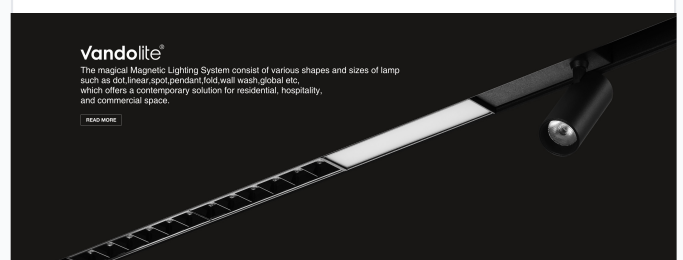

Versatile Magnetic Track Lighting System

This architectural magnetic track lighting system is designed for modern office, advertising, and exhibition environments. It features a sleek, minimalist design with adjustable spotlight heads and a variety of lamp modules, including linear, pendant, and wall wash options. The magnetic track enables effortless installation and repositioning, allowing for infinite illumination possibilities and precise directional control.

System Versatility

The circular magnetic system offers both general and spot lighting with full, half, and quarter circle options.

A comprehensive range of lamp modules including dot, linear, spot, and pendant options for diverse environments.

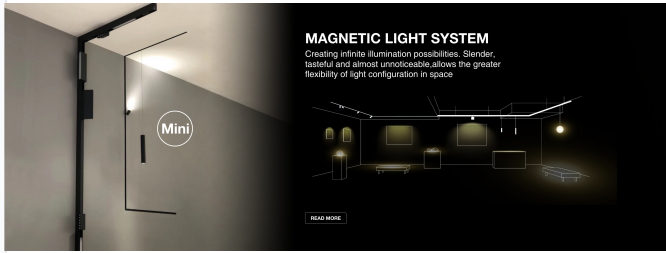

Circular Track Options

- Full Circle
- 1/2 Circle
- 1/4 Circle

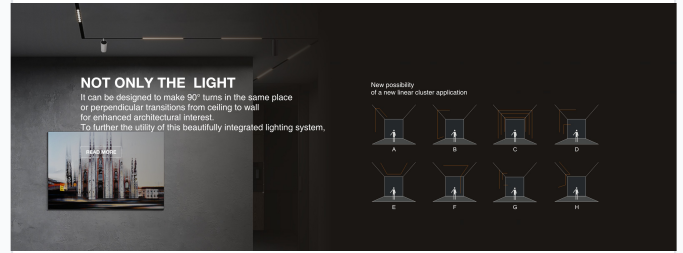

Available Lamp Types

Dot, Linear, Spot, Pendant, Fold, Wall Wash, Global

Design & Installation

A slender and tasteful design that allows for maximum flexibility in light configuration.

The system supports 90° turns and transitions from ceiling to wall for enhanced architectural interest.

Architectural Flexibility

- 90° turns in the same plane
- Perpendicular transitions (ceiling to wall)
- Linear cluster applications
- Slender and unnoticeable profile

Mounting System

Magnetic track for easy installation and repositioning

Technical Features

Core Concepts

Human Centric • Invisible Lighting • Simple Linear • Modular • Intelligence

Quality Assurance Testing

- Goniophotometer testing
- Integrating sphere analysis

Applications

Recommended Environments

Office, Advertising, Exhibition, Residential, Hospitality, Commercial
