

Magnetic Welding Positioner

This magnetic welding positioner securely holds workpieces together at various angles for welding applications. It features a magnetic force capable of holding up to 50 lbs and allows for angles of 45, 90, and 135 degrees.

Overview

Versatile Magnetic Welding Solution

This Arrow Magnetic Welding Holder is a robust tool designed to provide secure and precise alignment for various welding operations. With a powerful magnetic force capable of supporting up to 50 lbs, it ensures workpieces remain stable during tasks. Its multi-angle design allows for flexible positioning, making it an essential addition for professional welding efficiency and accuracy.

Technical Specifications

Available Angles	45°, 90°, 135°
Size	4 inch
Model Reference	VC15-XF2002

Quality & Assurance

Warranty

Limited Lifetime Guarantee

Key Features

- Strong and powerful magnetic pull
- Robust construction for industrial use
- Precise alignment for welding projects
- Multi-angle versatility
