

# Malleable Iron Wire Rope Clip

This clip is constructed from durable malleable iron. It is ideal for creating loops, terminations, and connections in wire rope assemblies for rigging, lifting, and securing tasks.

## Product Overview

### Heavy-Duty Malleable Iron Wire Rope Clip

This heavy-duty malleable wire rope clip is engineered for secure and reliable fastening of wire ropes in demanding industrial environments. Constructed from durable malleable iron with a C 15 steel U-bolt, this clip provides exceptional strength and resistance to corrosion. It is an ideal solution for creating loops, terminations, and connections in various rigging, lifting, and securing assemblies.

## Material Specifications

Body Material	Malleable Iron
U-Bolt Material	C 15 Steel

## Key Features

### Performance Attributes

Corrosion Resistant • High Strength • Heavy-Duty Construction

### Primary Applications

Rigging, Lifting, Wire Rope Termination, Securing Assemblies
