Overview

Precision Road Maintenance

The hand-push circular cutting machine is engineered for efficient road surface maintenance, specifically designed for creating or modifying circular openings for manhole covers. It delivers high working efficiency and precise cuts, ensuring that the road surface can be restored and leveled for a professional, durable finish. The machine features a robust frame, adjustable depth control, and an integrated water cooling system to manage dust and extend blade longevity.

Performance

Max Cutting Depth	15 cm
Compatible Blade Size	45 cm
Water Tank Capacity	46 L
Depth Adjustment Method	Handle Rotation

Technical Specifications

Model Specifications

Model	Engine Type	Power (kW)	Mass (kg)
MCC450-1	Diesel	6.6	145
MCC450-2	Petrol	9.6	125
MCC450-3	Petrol	9.6	125
MCC450-4	Petrol	9.6	125
MCC450-5	Petrol	9.6	125

Physical Dimensions	125 x 73 x 86 cm
Operation Type	Manual Push

Blade Compatibility

Blade Characteristics

Laser Welded • Wet or Dry Cutting • Segmented

Suitable Materials

Concrete, Asphalt, General Masonry, Sandstone, Roof Tiles
