

Manual Backpack Sprayer with Adjustable Nozzle

This backpack sprayer features impressive spray performance and two nozzles. It has an ergonomically refined rotating pump lever, a long hose, and adjustable manual valve for precise dosing.

Product Overview

Professional Manual Backpack Sprayer

This durable backpack manual sprayer is engineered for versatility in agricultural, gardening, and pest control applications. Constructed from high-density polyethylene, the tank offers excellent resistance against chemicals and UV degradation. Designed with user comfort in mind, it features ergonomic padded shoulder straps and a waist belt to ensure even weight distribution during extended operation.

Technical Specifications

Ergonomics

- Padded shoulder straps
- Adjustable waist belt
