

Manual Blood Pressure Cuff and Stethoscope Kit

This kit includes a manual blood pressure cuff and a stethoscope for accurate blood pressure readings. It is designed for both medical professionals and home users.

Product Overview

Professional Diagnostic Kit

This manual blood pressure cuff and stethoscope kit is designed for precise diagnostic performance, suitable for both medical professionals and home health monitoring. The kit features a durable zinc alloy gauge with a calibrated scale and a robust nylon cuff for reliable measurement. Accompanied by a high-quality stethoscope with an aluminum chestpiece, this set ensures clear auscultation and consistent results in a portable package.
