

Manual Cast Iron Sewing Machine

This manually operated household sewing machine is designed for basic sewing tasks. It features a sturdy cast iron frame and a hand crank for operation.

Product Overview

Manual Cast Iron Sewing Machine

This manually operated household sewing machine is engineered for reliability and simplicity in basic sewing tasks. Built with a robust cast iron frame, it provides a stable platform for consistent stitching and fabric repairs. The inclusion of a traditional shuttle hook mechanism and a hand crank makes it an ideal, electricity-free solution for manual garment maintenance.

Technical Specifications

Construction Material	Cast Iron
Operation Method	Manual Hand Crank
