

Manual Ceramic Tile Cutter

This manual tile cutter is designed for accurately cutting ceramic and porcelain tiles. It features a robust rail system for smooth scoring and clean tile separation, along with an adjustable measuring guide for repeatable cuts.

Overview

Professional Manual Tile Cutter

This manual tile cutter is engineered for precise scoring and clean separation of ceramic and porcelain tiles. Featuring a robust rail system and an ergonomic handle, it ensures smooth operation and consistent results for demanding tiling projects. The adjustable measuring guide allows for repeatable, accurate cuts, making it an essential tool for both professional contractors and serious DIY enthusiasts.

Performance Specifications

Cutting Capabilities

800 mm

Max Cutting Length

16 mm

Max Cutting Thickness

Construction Materials

Reinforced Steel, Aluminum Alloy, Tungsten Carbide Blade

Features

Key Features

- Precision rail system for smooth scoring
- Adjustable measuring guide for repeatable cuts
- Ergonomic handle for user comfort
- Durable breaking mechanism for clean separation
- Suitable for ceramic and porcelain tiles

Compliance

ISO 9001 • CE Certified
