Product Overview

High-Performance Manual Chain Hoist

The VT-type manual chain hoist is engineered for demanding industrial, construction, and automotive lifting tasks. Featuring a robust steel construction, it provides exceptional durability and high operational security while significantly reducing manual work intensity. Designed for efficiency and safety, this hoist is an essential tool for precise load positioning in professional environments.

Technical Details

Rated Capacity

3 ton
Capacity

Safety Compliance

CE Certified, Overload Protection, Safety Hook Latch

Operational Characteristics

Application Range

- Industrial manufacturing
- Construction site lifting
- Automotive workshops
- Confined space maneuvering

Lifting Capability

Vertical lifting only
