

Manual Drinking Water Bottle Hand Pump

This manual hand pump is designed for dispensing water from standard drinking water bottles. It features a hand-operated piston mechanism to create suction.

Product Overview

Efficient Manual Water Dispensing

The BP-01 manual hand pump is a robust solution for dispensing water from standard 5-gallon bottles. Constructed from high-quality food-grade materials, it features a simple piston mechanism that ensures easy operation without the need for electricity. Its adjustable design makes it ideal for diverse environments including homes, offices, camping sites, and emergency situations.
