

# Manual Fruit Peeler with Suction Base

This manual apple peeler is designed for efficiently peeling apples. It features a rotating mechanism that holds the apple in place while a blade removes the peel in a continuous motion.

## Product Overview

### Efficient Manual Peeling Solution

This manual apple peeler is a reliable kitchen tool designed for efficient, consistent fruit preparation. It features a robust rotating mechanism that secures the fruit while a precision blade removes the peel in a continuous motion. Designed for stability and ease of use, it is an ideal, electricity-free solution for commercial or home kitchens.

## Technical Specifications

Operation Type	Manual
Mounting	Suction Base
Primary Function	Apple Peeling
Power Source	None (Manual)

## Key Features

### Design Benefits

- Compact design for easy storage
- Suction base ensures stability during operation
- Continuous peeling motion
- Eco-friendly, electricity-free operation
