

# Manual Hand Saw for Woodworking

This hand saw is a manual cutting tool used for sawing wood and other materials. It has a toothed blade attached to a handle, allowing controlled and precise cuts.

## Product Overview

### Professional Manual Hand Saw

This manual hand saw is a precision cutting tool engineered for woodworking, carpentry, and general construction applications. It features a robust toothed blade designed for controlled, efficient cutting through wood and similar materials. The ergonomic handle ensures a comfortable grip, minimizing user fatigue during extended use.

## Product Details

Model Number	DT1711
Applications	Woodworking, Carpentry, Construction

## Design Features

### Blade Characteristics

- Hardened teeth for durability
- Designed for precise cuts
- Manual operation

Handle Design	Ergonomic
