

Manual Hand Saw for Woodworking

A hand saw is a manual cutting tool designed for sawing wood, plastic, or metal. It features a toothed blade attached to a handle, allowing for controlled cutting motion.

Product Overview

Precision Manual Cutting Tool

This manual hand saw is a professional-grade cutting tool engineered for woodworking, plastic, and metal applications. Featuring a hardened toothed blade for enhanced durability and precision, it ensures controlled cutting motion for various tasks. The handle is ergonomically designed to provide a comfortable grip, specifically aimed at reducing user fatigue during prolonged operations.

Technical Specifications

Key Design Features

- Ergonomic handle design
- Hardened blade teeth
- Controlled cutting motion

Model Identifier	DT1706
Application Suitability	Woodworking, Plastic Cutting, Metal Cutting
