

Manual Hand Saw for Woodworking

This hand saw is a manual cutting tool used for sawing wood, plastic, and other materials. The blade features a specific tooth pattern to efficiently remove material.

Product Overview

Professional Manual Hand Saw

This manual hand saw is a precision cutting tool engineered for woodworking and general material processing. It features a specialized toothed blade designed for efficient material removal and controlled cutting through wood and plastic. The ergonomic handle ensures a secure, comfortable grip, minimizing user fatigue during extended cutting tasks.

Technical Details

Design Features

- Ergonomic handle for precise control
- Optimized tooth pattern for efficient kerf creation
- Manual force operation for controlled cutting

Model Number	DT1708
Suitable Materials	Wood, Plastic
